Application

Telecommunication system
Optical instrument measure appliance
Fiber Distribution
Optical fiber CATV

Features

ADAPTER

Comply with : JIS C-5973, IEC Telecordia
High stable mating and demating characteristic
Low insertion loss and high return loss
Design for Variable cable
Customize assembly
Good Interchangeability, temperature
characteristic and wear resistance

ATTENUATOR

Optimize ion doped fiber technology
Various fixed attenuation available
Superior durability
Low polarization dependence
Superior spectral flatness and very low noise
Withstands high optical up to 1W

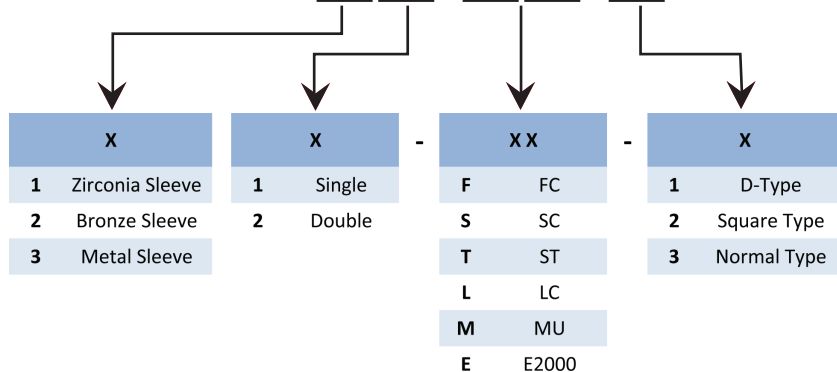

In line Attenuators & Hybrid Attenuators
are also available

Ordering Infomation

To order the HADAKO product follow the part number sequence

ADAPTER

HDK-FOA-□□-□□-□
